Your configuration in detail

AS1 Guard - commercial reference E/AS1GUARD/004

Featured clear passage	4.00 m
Boom	Round aluminium, Ø83.5 mm
Gearmotor	60 Nm Brushless
Configured controller	Phoenix-1
Construction	Aluminium housing and base
Proposed default position	Left-hand; reversible orientation
Finish	RAL colour to be confirmed

Guard range overview

The manufacturer datasheet specifies a 2-7 m clear passage for the Guard range, IP55 and an ambient temperature of -20 to +60 °C without heating. These range values do not, by themselves, specify the contents of the proposed configuration.

CONTROL ACCESS DISTRIBUTION

Technical illustration of the AS1 family; it does not show the included accessories.

Detection, protection devices, settings and positioning must be specified for each site. Compatibility is checked against the manual and quotation.
